LIFESTYLE & DESTINATION WEDDINGS

2025

Welcome

My name is *Isabella*

I'm a lifestyle photographer.

I started this journey 15 years ago after playing around in Fashion photography for a little while. Problem is, I discovered that I really didn't enjoy it. Spending hours and hours retouching models and clothing and creating an image that was FAKE ... just wasn't for me.

You see, I have a real problem with how the media perceives beauty. I do not want to live in a world where people are transformed beyond the lens and where photoshop rules all that is "beauty". Although Photoshop is an incredible tool (and I could NOT live without it) the media is using it for the wrong reasons. It's promoting "being perfect" rather than being unique and confident. By being a Fashion Photographer, I was part of the problem.

So, I started shooting lifestyle. My goal is to show my clients that their are beautiful... just the way they are, now! No need to change anything.

You don't have to be perfect.

Because perfect is a man-made construct.

Messes, bare faces, tears ... it's all as beautiful to me. I want to photograph you making dinner and reading stories or going out for ice cream to create core memories out of the everyday so that you remember your life forever.

I am inspired by EMOTIONS and the "mundane". I want my clients to stay close and be open with me about how they feel about their partner or children.

We are all human. We all have bad days and we all have so-called "flaws". Except flaws is subjective. What you think is awful could be wonderful for someone else. I want to photograph the REAL YOU and show you that "flaws" don't always have to be bad and that being unique could be incredibly beautiful.

Being raw and wearing your heart of your sleeve is absolutely amazing to me. Let me in and allow me to photograph you and show you how truly awesome you are.

Who is my client?

perfect

You believe that everyone is beautiful inside and out. You want to believe that you are as well.

You are adventurous, free-spirited and emotional. You are not afraid to laugh or cry in front of people and believe that freedom of expression is important. You have a creative side and believe that everyone is unique. You live by your own rules.

You love life and see beauty in everything. You cherish the company of your friends as much as the colour of flowers. You look for the good in people. You are easy-going. You care more about how others feel around you, than about what they think of you.

You wear your heart on your sleeve. You believe in destiny and "meant to be".

You value photography and the moments it brings back to you... like how smelling your mom's perfume from when you were a little girl takes you right back to that fabulous moment in time.

You are an old soul, who is grounded and peaceful and loving. You can rock it out in hiking gear, or dancing your heart out to your favourite song. You are smitten, in love, gaga over your partner. You care more about expressing that love rather than the type of decor that will be as center pieces. You care about the quality of people over the quantity. You are a perfect fit for me.

Am I the perfect fit for you?

I have questions

What is required to book you for my wedding? A 1000\$ deposit along with your contract is required to book the date. This deposit makes sure that I book you in my calendar. The remaining balance is due 7 days prior to the wedding date. They dates are first-come, first-serve.

How long does it take to get my photos back? I process orders on a timeline basis. The first weddings of the year will get their photos first. Generally you should allow 8-12 weeks for photos to be retouched and uploaded in the gallery. My albums take approximately 3 months to complete starting only after the wedding season is done depending on emails responses from you. These albums are custom-designed by me and it requires a little time to get done.

How many photos do we get? You get all of the photos from your wedding day that I deem awesome. That means that unless the flash didn't pop, the photos is blurry or you aren't mid-blink, you will get it. Typically that's approximately 50-70 photos per hour booked. This number isn't guaranteed though.

Can I decide to order an album after I get my photos? Of course! It's never too late to decide to invest in an album. However the opposite can't be done. If the album is already in your contract, it cannot be removed after it's signed. All albums must be paid in full before the album can be sent off to print.

Is shipping of my photos and albums included in your prices? No. My packages are prices for pick-up at the office only. The reason being that I cannot predict where my clients are going to be from. I wouldn't want to charge 200\$ for shipping if some clients will go pick up their albums. It's not fair, right? For

What's the difference between you and other photographers? I do not consider myself a fly-on-the-wall photographer. I'll be there throughout the ENTIRE process (if you'll let me) to help you plan your day so that you get to enjoy your day. Mental health is very important to me and my priority as your photographer is to make sure your day

with stress-free. On your wedding day I won't only to take your photos but to HELP YOU as well. Need a glass of water? I'll go get it. Need better shoes to walk on the grass? I'll give you mine. Don't remember what's next? I'll let you know and keep you on track! I'm there for you guys.

no idea how to plan my day. Can you help? Absolutely ! I have a lot of posts about wedding days on my website to help. If you book with me I also have a 90-page guide that I give for free to help you get everything on track!

How do you usually start your day? I start by photographing the bride getting ready. Love love. I typically start with the groom then, go to the bride for 1.5 hours. That gives me enough time to photograph the bride getting dressed, the bride getting her hair and makeup done while the girls get ready and then everyone helps the bride get on your dress. I typically end with the dance floor opens

How many weddings do you take per year? Starting in 2023, I decided to limit my own my maximum to 6 weddings per year unless the wedding really means to me. So make sure to book with me. I have decided to focus more on wedding photography and photograph people at their events. I want people to remember their everyday life as I believe that they are JUST AS IMPORTANT as their wedding events.

Outside of Montreal. How much does it cost? Not a lot! Just 0.51\$ per KM from my home office H8P 2B4. I calculate the KM to and from the location and that's your total. Usually, not more than 100\$. If it's outside the county then there's plane fares and other add-ons to add.

Any more questions. Where can I ask? You can send all the questions you want by email. photography.ca

"WE WERE VERY PICKY
ABOUT OUR PHOTOGRAPHER
AND YOU WERE THE
ABSOLUTE RIGHT CHOICE."

MELISSA & TONY

Throughout our year of planning the wedding, I loved how available you were to answer all of my questions and to provide advice and guidance. I didn't have anyone to ask, and felt really lost at times. I fell in love with your YouTube videos, they were so informative and quite hilarious. You talked about Do's & Don'ts, you talked about your DJ's lights, you talked about real things, and it came in handy. You talked me through the family list for photos, THAT was intimidating but you helped me set guidelines and when the time came, you were a boss at calling out shot after shot! The year went by quickly, but I never felt that we lost touch and I needed that.

WE LOVE
YOUR WORK
BUT MORE
IMPORTANTLY
WE LOVE YOU
AND WE HAVE
FUN WORKING
WITH YOU.

I didn't want to book you and not see you for a year. The day of the wedding was magical and the pictures were fabulous!! I remember looking at them the night before Tony and I left for our honeymoon, the timing was great. So much was captured that I never saw (we even spotted a mystery guest sitting at the back of the church as you photographed my dad and I walking down the aisle!) I just love looking in the background of photos. Tony and I really lucked out in finding you Isa; we love your work but more importantly we love YOU and we have fun working with you. We brag about you all of the time and love having your work on display around our home. Until next

time Isa, it's always such a pleasure, and thank you for doing what you do xo

LAUREN JAY & PERRY

Thank you for everything you did for my wedding. You are absolutely awesome. My rainy day blues died as soon as I saw you work your magic with that camera of yours. I'm sooo happy with what you've done, it's impossible to say how thankful perry and I are. Then when my dress kept unhooking you went above and beyond (or below) and put my dress back together. Thank you for calming me down. You are awesome awesome awesome !!!!!!!!!!!!!!! Thank you times a million and then times infinity!!!!

ASHLEY & ALEX

You are amazing. We had a very small wedding in Costa Rica and you fit right in. Everyone absolutely loved you and kept telling us so. It was great to have an engagement shoot with her the day before the wedding, but not because we needed it to feel comfortable with you -- that was easy -- but because we benefited from your amazing photography skills! We have hundreds of beautiful beautiful photos that are exactly what we wanted. We love them and we love her. Thank you!

You are a wonderful human with an amazing sense of humor and eye for beautiful photos. We were VERY picky about our photographer, and you were the absolute right choice.

AMELIE & ANDRES

There are no words to describe how I feel about the pictures! Looking at them brings me back to such a wonderful day and I'm so happy that the emotions you were able to capture in the pictures convey the joy, excitement, nervousness and giddiness that made our wedding such a beautiful and fun celebration. Everyone looks so beautiful

and I can't wait to share the pictures with them! I know I've told you before but I just can't stress enough how much we appreciated your help, dedication and professionalism that day and in the days leading to it. Knowing that you were there and knew what you had to do really helped us relax and enjoy the day, knowing we'd have all those memories recorded on film.

MELANIE & PEDRO

We just want to thank you so much for our incredibly amazing and beautiful pictures. We have spent the whole evening (literally, from when I got home from work at 5pm to now... 10pm) looking at them once together and then once again with our parents. They are absolutely gorgeous. There's so many great ones to choose from!!! You captured our wedding day in a way that is simply beyond our expectations. You're truly incredible at what you do and we will continue following you online and keep you in mind for other big moments in our lives. Once again- Thank you, thank you, thank you!!! We really couldn't have booked a better photographer for our wedding day!

JACKIE & CHRIS

I love you so much, and can't wait to give you the best review you will ever get from any customer you will ever serve in your entire life!! I PROMISE! You were the most professional, fun, caring, and knowledgeable person I have ever met! You really were the best thing to happen to us on our wedding day. I would also like to let you know, that it wasn't just Chris and I who thought you were fantastic, I had SO many people tell us how wonderful you both were! So seriously, from the bottom of my heart, THANK YOU! I will never forget you and will brag about the fact that I had the best photographer in the planet for my wedding. 

AMÉLIE

Honestly, the best photoshoot I've ever done! Ella took the time to ensure I felt good and beautiful! I felt so good after the photoshoot, but then I saw the pictures.....I WAS AMAZED. I felt such a boost of confidence after I saw the photos - her artist eye captured something I haven't yet seen in me. If you are looking to book a Boudoir shoot (or any other photoshoot, as I'm sure all her pictures look A-MAZING) I would 1000% recommend.

VY & MIKE

Isabella is soooooo friendly and amazing. She has photographed us for our engagement, wedding [at Disney], and maternity photos. She is so easy to work with and shoots with her are so comfortable, yet the photos turn out amazingly. She has a lot of experience and helps guide us perfectly.

AHLAM & KASEY

Isabella is not only a fantastic photographer, but also an amazing person. She was very involved in our intimate ceremony - Acting as a witness, helping me put on my veil, etc. She is warm, friendly, and kind and we were very lucky to have her as part of our day and will absolutely ask her to photograph the next big moments in our life.

LAUREL

I booked a boudoir session with Ella as a birthday present for myself and wish I'd done it sooner!! She is as as amazing, bubbly, competent and professional as you could ever hope. From the first minute, I was happy to turn myself over to her coaching and let her lead me - I felt as comfortable as if we were well-acquainted, not practically strangers!

The end result? I don't even have words. I look amazing and even better, I felt amazing the whole time. I have the most beautiful album of memories now, and had an awesome day making them. I can't recommend her enough!

KAYLA & WARREN

I highly recommend Ella Photography, we chose her to photograph our wedding this past September in Jamaica and I couldn't have chosen anyone better for the job. Not only is she amazingly talented and all our photos were better than we could have ever imagined but she was so kind and just fit right in with our group. She truly went above and beyond our expectations! Thank you Isabella!

VERONICA & ROBERT

I would recommend Ella in a heartbeat to anyone getting married! Apart from her stunning photos and eye to capture beautiful backgrounds, she is an absolute sweetheart who wants to help celebrate you. For my wedding, Isabella made sure that my day ran as smoothly and as joyful - and of course as fun - as I had hoped. I remember asking where my shoes were, or where a bag was, and she would know and rush to get them. For me, asking for help is not the easiest to do, so it meant a lot to me when, without being prompted, I would see them help get the hall ready, or help move around tables. We did not have a wedding planner, but Isa was happy to share advice and tips. Even a month before the wedding, there was still a lot left to do, so Ella had sent us ideas for centrepieces that were in line with our theme, and great blog posts to prepare us!

You can tell Ella loves what she does and has fun with it. She can make you feel at ease when you have to take photos and can dance along while snapping away. She is also so unbelievably organised, allowing your day to be structured when it seems like a one big giant plop. A wonderful delight to work with!

MEAGHAN & VINCE

We booked for our wedding and did an engagement shoot with her as well. I am very camera shy but she has been so easy to work with and makes the entire thing incredibly comfortable and fun ! She has been AMAZING to work with. Her work is stunning and she's just pure good vibes. Can't wait

to book with her again , i would recommend her to anyone and absolutely everyone !!

TRACY & JAMES

From the moment we met Isa during our engagement shoot, we knew we were in good hands. Her vision, creativity, direction, and composition are an organic experience, never seeming staged or forced. She takes what she has to work with, and, magically, creates truly beautiful photographs while capturing the very essence of her subjects. During our time with Isa, we almost felt as if she had known us for years - she knew how to make us laugh, how to make us comfortable, and exactly what we wanted. She has an incredible presence and energetic aura that is there from the moment she arrives, until she takes her very last photo.

I also feel compelled to mention that during the wedding planning stage, no matter the question, time of day, or relevance to photography, Isa would always be there to answer any and all queries we had. The fact that Isa was willing to help with anything at all wedding-related was beyond appreciated and helpful. It's as if Isa's goal is to make your wedding experience the least stressful it can possibly be. Oh, and check out her blogs for super helpful tips as well.

On the wedding day itself, Isa again went above and beyond photographer by helping throughout the getting ready process; from helping me with my dress to keeping me calm about the weather. This was, again, so incredibly appreciated.

I can go on and on, but, in short, Isa is a true professional- she knows how to get people to look their best in every single photo, and makes every object look like a stunning work of art. She is also the coolest person ever. We would highly recommend Ella Photography one-hundred-million percent; Isa took our already high expectations, and exceeded them beyond our wildest dreams.

WHY HAVE A SESSION

Is an engagement shoot really necessary? After all, your wedding pictures share the beginning of your life together, right?

Shooting an engagement is important for several reasons.

First, this time allows you to get comfortable in front of the camera with your photographer before the wedding. It also allows you to get to know your photographer on a more personal level.

Remember, you will spend an entire day with your wedding photographer. It's important to know their personality before the big day and see if you will get along.

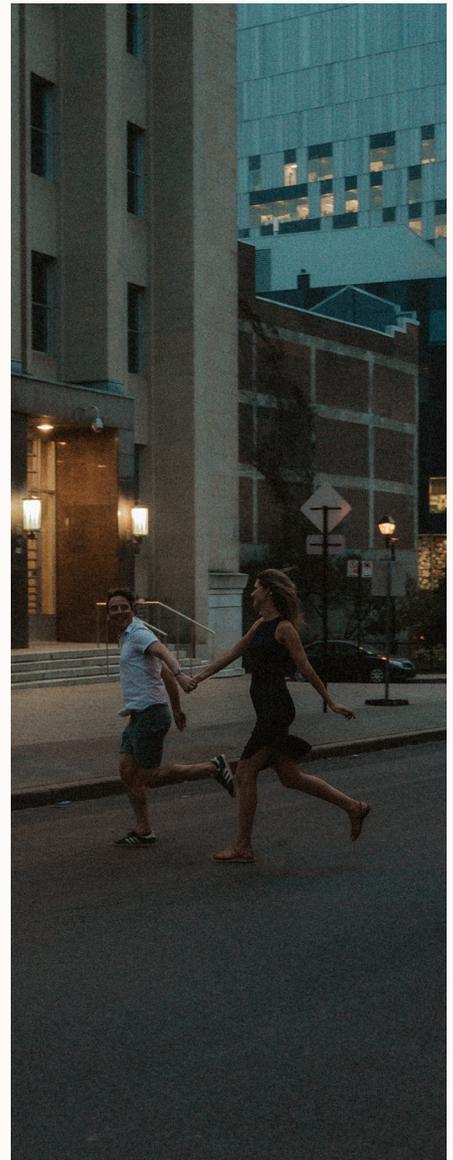

I also really really love engagement

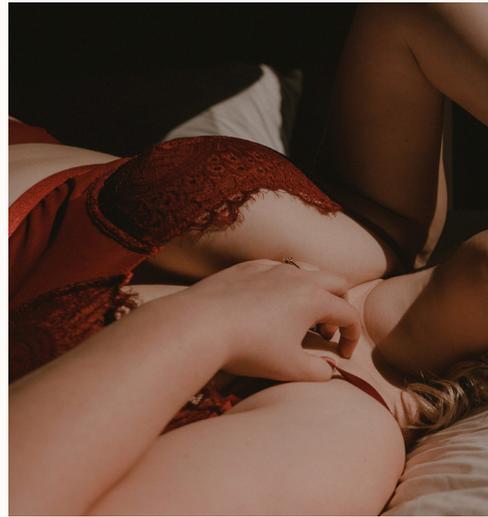

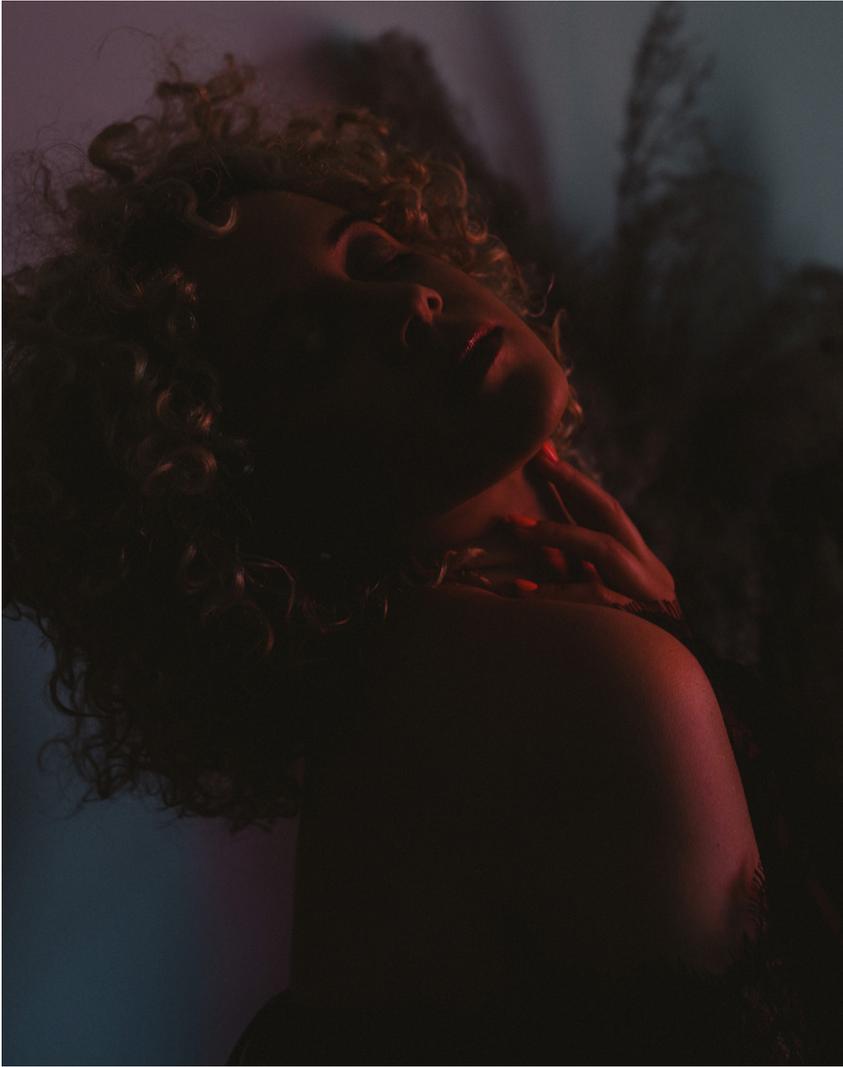

sessions!!! They are honestly my favourite part of the whole process.

They are fun because you get to show off the real YOU. It's your everyday clothes and we have all the time in the world. Although sessions are typically an hour long ... If we wanted, we could take longer. There's no timeline. No agenda. We take our time and photograph your love for each other.

We can also choose more than one location (or outfit) for diversity.

You can showcase your personalities in a more casual setting, while creating some fun photos for wall portraits, your wedding sign-in book, sign-in board and Thank You cards (shot early enough, we can also provide the images for your Save the Date cards and invitations).

My Story

for the RAW SESSION in your own home.

**1-2 hour session
includes 10 high-resolution photos.**

TIME TO SHOW OFF THE REAL YOU.

If you are looking to get to know how amazing you are with a RAW boudoir session. This can be on your own, with your partner and even as you are expecting your little one.

The RAW sessions are called "This is me" for a reason. You do your own makeup and hair and it's done in your own home. Because sometimes, you just need someone else to show you how they see you. Start loving yourself (and your home) as it is. No need to change anything.

There's something pretty amazing about showing women their photos and seeing their face light up with an "I can't believe this is me!"

They see themselves in a whole new light! They are sexy, they are strong and yet... Not much has changed since yesterday. The only difference is that now, they know that they are as beautiful as those models in the magazines.

BETTER THAN A SELFIE (my boudoir brand) is for the everyday woman. Sometimes, she just needs a little reminder that she is as gorgeous outside as she is inside.

I encourage these sessions to any woman... Especially if she is single or feeling down on yourself.

However, You can even offer an album as a gift of glamour to your partner if you are looking for a cheeky gift.

These shoots are private but you can invite a friend to do the shoot after yours. You can even save 10% each !

FAMILIES. FAMILIES. FAMILIES

The time of the traditional portrait is OVER.

My mom has this story. She says that around the age of 2, I had a scab on my nose for months because I would continuously fall in the same spot. I also always used to go sit on the sidewalk and share my ice cream with my dog. I would have loved to have a visual of that time. Sure, it was pretty gross but.. it was my reality. However, because it happened every-day, my family took it for granted and deemed it not special enough to be captured and it became a memory that was lost in time.

In life, we laugh, we pout, we scream. All moments that might seem mundane until time fades the moments away.

If your child is always grumpy and never wants to smile, let them be! This is still a memory you should want to keep. Invite me over for taco night, or movie night or soccer games... let's show off your beautiful family for who they actually are!

PORTRAITS ARE NOT ONLY BOUDOIR

Professional portraits are a necessity for your everyday life as a professional

Yes, our phone cameras are getting better by the day, however, we all know the reputation that selfies have let alone that you cannot print it. A great professional photo of yourself can have your personality show through and get you the life that you want.

You can use it on your LinkedIn profile and other social media channels, in an important magazine article, your next book's cover, as a casting photo or even on your Tinder profile. Let people on the outside see you for who you really are on the inside.

With this session, you can get two high-resolution portraits to use anywhere (commercial and personal use). It's a 30-min session and you get to choose your fav. Add as many outfits as you wish too!
